

Stephanie

has a Degree in Sociology and Education and a Post Graduate Certificate in Education.

As a teacher she specialised in Additional Needs and Physical education. She has years of experience working in schools planning, delivering and monitoring/evaluating lessons for all children in PE and all subjects for those with a variety of special needs.

She has also trained and been responsible for Family Learning, Healthy Schools, Nurture Provision, Fitkid and Relax Kids (Mindfulness) and Creative Dance.

Over the years Stephanie has used her skills in all these areas to provide innovative strategies to deliver learning opportunities to many children. She has always believed in the benefits of animal / horse assisted therapy in raising educational and motivational effectiveness and in developing a cross section of skills.

She has, in the past, successfully used **PAT** (Pets As Therapists) dogs in schools to encourage reading and language work, social skills and physical development. She has also had wide experience of working with multi professionals such as Psychologists, CAMHS and Speech Therapists. She is a keen sports person and has previously been a horse rider and owner.
