

From Derbyshire County Council

15/07/2022

Further to my recent email informing you that your application has been unsuccessful, please find below feedback from the panel.

Each application was discussed in detail at the panel and then funding leads had time to consider the applications and consult with relevant colleagues. Large applications have to meet at least two funding priorities to go forward. Each lead was sent a matrix for them to indicate which applications they support which also meant a commitment from their funding allocation. Your application was only supported by the positive activities for young people theme. and so was not able to be supported. Below are the comments from the Be physically active and make positive lifestyle choices

Not supportive – this is a limited project which has little sustainability. It is focused on a very small geographical area and impact is limited to small numbers of participants. It has been funded via small grants previously. Value for money is limited and activity is ongoing

Regards
